

Table-top Sneeze Screens with aperture

Designed and
manufactured
in the UK

Sneeze screens are a necessity in public-facing roles to help stop the spread of Covid-19. These **temporary**, **affordable** and **recyclable** screens will prove ideal for protecting staff at the polling station and the count

Foam PVC sneeze screen
Ref: ECS041

Cardboard sneeze screen
Ref: ECS0412

Our Cardboard and RPET (clear plastic) sneeze screens and desk dividers are a more cost-effective version of similar perspex (acrylic) items in the market – they do the same job of helping to stop the spread of viruses like Covid-19 (Coronavirus), but are generally less expensive.
